# HARROLD'S - GARDENER

SEEDS, BULBS and PLANTS FOR FALL & WINTER PLANTING — SEASON 1946

HARROLD'S PANSY GARDENS & GREENHOUSES

P. O. BOX 29 - R — GRANTS PASS, OREGON.

PLEASE READ — EARLY ORDERING IS ADVISED

In this folder we offer a wide selection of material with which to beautify your home and garden. We have better than a normal supply of most of these items but ordering upon arrival of this list is suggested as demand is sure to be brisk and we will of course fill all orders in rotation as long as stock remains available. In some varieties it will be possible to supplement our own supply while in other varieties this can not be done.

As with nearly all business concerns we are experiencing an active demand for the material we supply. Also the supply of suitable labor is limited and at certain rush periods is not sufficient to maintain pre-war promptness in shipping. Therefore ALL orders will be shipped in strict rotation of their arrival and will have individual and careful attention on that basis. As always it is our endeavor to supply good stock, well packed and shipped as promptly as conditions will permit. You'll find our stock to be of sound value, high in quality and reasonable in price.

## PLEASE NOTICE

### ORDERING BY MAIL

As in the past, our service is as near as your own mail box. We are the largest mail order shipper of horticultural products in Southern Oregon and Northern California and we are ready to serve you carefully and well.

### Prices In This List Are Prepaid

EVERYWHERE ON SEEDS OR OTHER SPECIFIED ITEMS

OTHERWISE THE FOLLOWING APPLIES

BULBS & PLANTS POSTAGE FREE IN THE FIRST 4 ZONES.

This includes ALL areas west and north of the cities of Missoula, Mont.; Salt Lake City, Utah; Las Vegas, Nev. and Los Angeles, Calif. NOTE—the city of Long Beach, Calif. is 5th zone and outside this group.

In All Other Areas ADD 10% For Packing And Postage

Where this formula is not conformed to shipment will be made by Railway Express with all transportation charges collect on delivery. The strict following of this formula is made necessary because of increasing cost of transportation as distance of transport increases and the added weight of packing material required to protect shipments over the greater distances.

### OUR SERVICE IS NATION-WIDE!

Our service is available to any gardener in the United States on plants and bulbs. We have shipped successfully to every State. We ship seeds to all parts of the world.

No mail order for less than \$1.00 accepted.

No individual item will be supplied in amount less than the smallest quantity of that item listed. Varieties MAY NOT be combined to make the minimum quantity except where it is color within the identical variety but NOT family.

### SUBSTITUTIONS

Please specify definitely if substitutions are acceptable in case variety ordered is sold out. IF THIS INFORMATION IS NOT GIVEN we will assume that it will be acceptable that we make the nearest possible substitution in the same specie. We prefer that you mention some second choice items if possible. No substitutions will be made except under these rules and then only when ordered items are out.

### SERVICE AT THE NURSERY

As in the past come to the nursery and greenhouses for your gardening needs if you can. We shall be glad to serve you here at the Gardens as we have for the past 20 years. Prices are lower in some cases at the gardens.

### BUSINESS HOURS AT THE NURSERY

VISIT THE NURSERY WHICH WILL BE OPEN FROM 10:00 A. M. UNTIL 6:00 P. M. EACH WEEK DAY. WE WILL REMAIN CLOSED ON SUNDAYS THROUGHOUT THE FALL AND WINTER SEASON UNTIL FEBRUARY 15th., AFTER THAT DATE WE ARE OPEN SUNDAYS FROM NOON TO 6:00 P. M.

The continuation of this schedule that has been followed the past three years is made necessary by continued shortage of thoroughly experienced help.

## Hardy Plants

This group includes Perennials and Biennials which should be set in fall, winter or early spring depending on the locality. Where the winters are severe they must be set in fall before the ground freezes or early spring. In milder climates they may be set during the period from September to late April or May. Biennials will usually bloom one year only, then unless they volunteer must be reset. Perennials will flower for several seasons without resetting and many of them live quite a long period.

Of necessity, because of the limit in available space, these descriptions must be brief. Most of these items, however, are well known and so most gardeners are acquainted with them. The very best strains are all that are offered. The descriptions given set forth the characteristic setting each sort offered apart from the common run of stock. Where height is mentioned the figures followed by (') means feet while (") denotes inches.

| VARIETY.  | PLANT PRICES PER 3 6 12 |        |        |
|---|-------------------------|--------|--------|
| <b>ALYSSUM</b> — Madwort, Gold Dust or Basket of Gold.<br>Bright yellow flowers in early spring in big clusters. For border or rockery. Soil, rich loam well drained, full sun. Group with Tulips, Violas, Violets, or Pansies.   |                         |        |        |
| <b>SAXATILE COMPACTUM</b> : Golden yellow about 12".  | \$ .75                  | \$1.30 | \$2.25 |
| <b>SAXATILE CITRINUM</b> : Pale yellow about 9".  | .75                     | 1.30   | 2.25   |
| <b>ANCHUSA</b> —<br>For borders making a plant from 2½ to 4' high. Large clumps of loose hairy foliage with leafy stalks of loose masses of small bright blue flowers. Grow nearly anywhere, blooms July to Sept. Combines with Coreopsis, Gaillardia or orange or yellow Chrysanthemums. |                         |        |        |
| <b>ITALICA DROPMORE</b> : Gentian blue, about 4'.   | 1.00                    | 1.75   | 3.00   |
| <b>FELTHAM PRIDE</b> : Dwarf Gentian blue, about 2½'.   | 1.00                    | 1.75   | 3.00   |
| <b>LISSADEL</b> : Bright blue, about 3'.  | 1.00                    | 1.75   | 3.00   |

### AQUILEGIA — Columbine.

Erect branching plant with tall slender stems. Flowers are brightly colored in many shades. Easy culture in most soils in partial shade protected from wind. Group with Scabiosa, Delphinium, Stocks or Snapdragons.

**HARROLD'S DE LUXE HYBRIDS**: Longest spurs in a very unique color range. These are 2 year old clumps. 1.20 2.25 4.00

### AREBIS — Rock Cress.

A low growing border plant for sunny rock garden or partial shade. Beginning in May, flowers 6 to 8 weeks.

**ALPINA**: Pure white. Large flower heads, about 8" high. .75 1.30 2.25

| <b>TUBULOSA AETNA RED:</b> Very large flowers of brilliant red with tubular quilled flower petals. Striking. ....  | .50    | 1.00       | 1.75    |   |    |

**Campanula** — Canterbury Bells.

Branching plants heavily loaded with pendent bells. For hardy borders or back of rockery. Grows well most anywhere except dense shade. Blooms May and June, 3 to 4'. Group with Scabiosa, Delphinium or Lupin.

|  |      |      |      |
|--|------|------|------|
| <b>CALYCANTHEMA MEDIUM</b> — <b>ROSE:</b> Brilliant rose pink. ....                            | 1.00 | 1.50 | 2.50 |
| <b>CALYCANTHEMA MEDIUM</b> — <b>WHITE:</b> Pure white. ....                                    | 1.00 | 1.50 | 2.50 |
| <b>CALYCANTHEMA MEDIUM</b> — <b>MIXED:</b> All colors including blue purple and lavender. .... | 1.00 | 1.50 | 2.50 |

**CANDYTUFT:** Iberis.

Very showy, much branched and 12 to 15" high. Flowers prolifically in spring and early summer. Any good garden soil in sun or partial shade. Group with plants same season.

|  |     |     |      |
|--|-----|-----|------|
| <b>QUEEN OF ITALY:</b> Heavy flowers of rosy lilac. .... | .50 | .80 | 1.50 |
|--|-----|-----|------|

**CHRYSANTHEMUM** — Hardy Garden Types.

These border Chrysanthemums do best in a rich, well drained soil in a sunny location. They are quite hardy to zone 4. Combine well with most any perennial permitting varied colors. Set as boarder filler or as color accent.

|  |     |      |      |
|--|-----|------|------|
| <b>KOREAN HYBRIDS:</b> Single flowered in a most brilliant color range. Flowers 2" and over, plants 3'. Blooms early. .... | .80 | 1.50 | 2.50 |

|---|------|------|------|

## Hardy Carnations

These are a major specialty with our perennial department and we offer the greatest selection of any single grower of this group. Because of the variation in hardiness of these different groups we suggest that you order that group which will be hardy in your climate; otherwise we will use our best judgement in filling your order and send the one we believe will be hardy for you.

These Carnations may be used in the hardy border, in mass beds or as accent specimens in the rockery or wild flower bed. They prefer cool climatic conditions where they grow best in full sun. In warm climates plant in partial shade though not too deep a shade or this will cause weak, grassy growth with small flowers. They do best in a rather rich soil which **MUST** be well drained in the winter but retains moisture easily when watered in summer. The plants offered in separate colors will be sent in your selection although we can not guarantee the separate colors to be more than 90% true to color. Cultural sheet will be supplied free with each order.

**Giant Double:** Three \$1.00; 6 for \$1.50; Doz. \$2.50

Recommended only along the west coast west of the Cascade and Sierra Nevada Mountains and in southern states. These do not withstand temperatures lower than 15 to 20 degrees above zero well. Flowers, however, are large, born on plants 16 to 20 in. high. About 95% are true, full double and flowers are 2 in. in diameter. **COLORS** — Canary yellow, cardinal red, coppery salmon, crimson, deep rose, salmon rose, flesh pink, rose pink, white and mixed.

**Perpetual Giant Double Flowered:** Three \$1.00; 6 for \$1.50; Doz. \$2.50

Recommended for the same climatic localities as Giant Double listed above. These are larger flowered and come the nearest to the habit of the Florist Greenhouse Carnation of any of the strains suitable for outdoor culture. They are strongly clove scented and the flowers are often 4 in. across on disbudded stems. Height 16 to 20 in. **COLORS** — Clear yellow, dark crimson, flesh pink, intense scarlet, deep rose pink, light rose, salmon rose, violet, pure white and fine mixed.

**Enfant de Nice:** Everblooming. Three \$1.00; 6 for \$1.50; Doz. \$2.50

This is a group normally handled as hardy annuals but it may be treated as a perennial in the milder western and southern areas mentioned above. It is a cross between the two varieties listed above and well retains the best points of both parents. They are intermediate in flower size between the parents although the plant is slightly higher. Flowers are 2½ to 3 inches across on strong stems and are profusely produced over a very long season - late May to frost. **COLORS** — Pale pink, red, rose, salmon, scarlet, striped, white and mixed.

**Malmaison Giant Double:** Three \$1.00; 6 for \$1.50; Doz. \$2.50

Of about the same hardiness as the above three varieties but with flowers that range up to 4 inches across in fine pastel shades. Mixed colors only.

**Grenadin Full Hardy:** Three \$1.00; 6 for \$1.50; Doz. \$2.50

This group is a bit less rapid in growth and the flowers are a little smaller in average size and number but they are dependably hardy anywhere in the U. S. with light protection in the colder sections — about like that given Pansies. Flowers are about 90% double and have a delightful fragrance. **COLORS** — Black King - dark red: cardinal red, snow white and mixed.

CULTURE SHEET FREE WITH EACH ORDER FOR THESE

## Delphinium Pacific Giants

These are heavy year old plants, many of which have bloomed this fall. They are quite certain to bloom early next season. We find these Pacific Giants to be by far the best of the hybrid types from every standpoint for the American climate and cultural conditions and for that reason we grow no other kinds. They should have full sun, free circulation of air and a rich, light, alkaline soil. Plants should be set at least 2 ft. apart and they grow from 5 to 8 ft. high when in bloom. They group well with Columbine, Salpiglossis, Snapdragons, Stocks or Gladiolus and are ideal as accent specimens. The stock here offered is grown from seed and is rogued as near true to type as bloom so far produced will allow. We do not, however guarantee absolute trueness or uniformity

| VARIETY.  | PLANT   | PRICES PER | 3       | 6 | 12 |

| <b>DELIGHT:</b> Lacy flowers of pale pink to purple. 9". ....   | .75 | 1.25 | 2.25 |
| <b>LOVELINESS:</b> Rosy lilac finely lacinated and fringed. 10". ....                                 | .75 | 1.25 | 2.25 |
| <b>SWEET WIVELSFIELD:</b> Many shaded hybrids about 12". ....   | .50 | .80  | 1.50 |
| <b>WINTERI:</b> Compact free flowering. Many bright shades. 10". ....                                 | .75 | 1.25 | 2.25 |

**DIGITALIS** — Foxglove.

Grows well in ordinary soil so long as it has partial shade. Flower spike 3' or more covered with thimble-like flowers that all droop to one side of the stalk and are usually spotted. Use in perennial border or group with Hollyhock, Campanula, Shasta Daisy, Stocks or Delphiniums.

|  |     |      |      |
|--|-----|------|------|
| <b>GLOXINIFLORA PURPLE:</b> Large flowers on long stems. ..          | .75 | 1.25 | 2.25 |
| <b>GLOXINIFLORA ROSE:</b> Very showy large flowers. ....             | .75 | 1.25 | 2.25 |

| <b>REPENS:</b> Creeping baby's breath. White about 6". ....    | .80 | 1.50 | 2.50 |

**LUPIN** —

A group of very showy flowers rivaling Delphinium in their showyness but having colors not found in the latter. Grow well in sun or semi-shade and like a rich loamy soil that is slightly acid. Makes best showing in mass but may be used for accent.

|   |      |      |      |
|---|------|------|------|
| <b>RUSSELL'S ENGLISH HYBRIDS:</b> The most showy and the largest flowered. Colors mixed from white through pink, rose, cream, yellow blue and purple. Very striking. .... | 1.50 | 2.75 | 5.00 |
|---|------|------|------|

**MYOSOTIS** — Forget-me-not.

Small star shaped flowers of blue freely produced. Plants of handsome form. Excellent for edgings. Combines well with Tulips and spring blooming bulbs. Grows in ordinary soils but prefers light, moist, well fertilized soil.

|  |     |      |      |
|--|-----|------|------|

| <b>OBLONGATA BLUE BIRD:</b> Early large flowered blue, ....    | .75 | 1.25 | 2.25 |

## HARROLD'S PEDIGREED STRAIN

*Giant Pansy Plants*

Pansies are a major specialty with us and have been for many years. For over 30 years we have been doing specialized breeding and improvement work in this field and we have introduced more new varieties since 1927 than any other individual specialist breeder. Our annual production of Pansy seeds is not far from being the largest of any specialist grower in the United States. Our work in this field has been mostly in the interest of and with the professional florist and nursery trade and because of this our stock is probably better and more favorably known by the professional. This is possibly its best recommendation to you for the professional is super-critical and must be sure of the finest quality to insure his profits.

## SET PANSY PLANTS THIS FALL

For the finest Pansy beds next spring plant them this fall if you are in a climate where minimum temperatures do not drop below 10 above zero without snow or even if it goes below zero with snow. Pansies are very hardy if given a bit of protection such as evergreen boughs, light brush or a light straw mulch and will stand sub zero temperatures without injury. It is in these early plantings that the earliest show beds are produced. In a climate where the temperature does not go below 20 degrees above no protection is needed and in warmer localities Pansies should be grown as a winter flowering plant where they give a grand display of color during the entire winter. While usually treated as annuals gardeners often miss their best performance by not growing them more as perennials. They are just as hardy as Primroses, Carnations, Delphinium and many other plants commonly planted in the fall.

## OUTSTANDING NOVELTIES

**HARROLD'S SUNSET GIANTS** — Our latest novelty introduction. Sunset shades of orange, red and gold. Giant in size the markings range from self to heavily blotched. Shadings are brilliant and a bed of these is sure to attract attention.  
**PLANTS FROM OPEN FIELD BEDS:** \$1.75 per doz.; 25 for \$3.00; 50 for \$5.00; 100 for \$8.00; 250 for \$16.00 postpaid.

**HARROLD'S PEDIGREED CUT FLOWER PANSIES** — ORIGINAL STRAIN — This is the original Pansy to be bred for cutting. Plant growth is rather low but flower stems up to 12 inches can be produced. The color range is about as varied as the best bedding mixtures with flowers nearly as large. The plant is just as hardy as any Pansy. Suitable for growing outdoors or in greenhouse though stems will be longer inside. Outstanding for bouquets.  
**PLANTS FROM OPEN FIELD BEDS:** 12 for \$1.50; 25 for \$2.50; 50 for \$4.00; 100 for \$7.00; 250 for \$12.50 postpaid.

## BEST BEDDING MIXTURES

**HARROLD'S PEDIGREED GIANT ART-SHADES** — We consider these to be the finest Exhibition type of Pansy available today. With good culture the flowers are extremely large (we have had them five inches across in our seed production fields.) They flower early and their coloring is very brilliant. Normally there are over 500 color combinations in this mixture with many pastels as well as deep pure colors. Marking is typically Exhibition, ranging from self through the dainty penciled types to the tri-color blotched having a veritable rainbow of color in a single flower. The plant habit is robust and it is hardy under reasonable treatment anywhere in the U. S. For mass bedding they are not excelled because of the brightness of the color scale while selections for specimen planting may easily be made from this mixture. Flower stems are long, usually being adequate for bouquets. This variety developed from our Harrold's Pedigreed Giants and is much advanced over it.

**PLANTS FROM OPEN FIELD BEDS:** 12 for \$1.50; 25 for \$2.50; 50 for \$4.00; 100 for \$7.00; 250 for \$12.50; 1,000 for \$45.00 postpaid.

**HARROLD'S PEDIGREED SWISS GIANTS** — Our latest and finest "FANCY" type Pansy. The fancy type has the typically large center blotch surrounded by a more narrow band of contrasting color. For this type these are the ultimate in flower size and color range with compact, sturdy plants. The flowers of heavy substance and velvety texture are brilliantly colored with many red and deep shades which are individually outstanding. With good culture it is possible to grow 4½ inch flowers with this strain though usually it is not as large as the Harrold's Pedigreed Giant Art Shades offered just above. For best variety we recommend the use of both.

**PLANTS FROM OPEN FIELD BEDS:** 12 for \$1.50; 25 for \$2.50; 50 for \$4.00; 100 for \$7.00; 250 for \$12.50; 1,000 for \$45.00 postpaid.

**HARROLD'S PEDIGREED GIANTS** — This outstanding Exhibition type was introduced by us in 1929 and has maintained wide popularity ever since. The flowers are very large on compact, robust plants that produce a most varied range of bright colors. Flower markings are typical of the type with self, penciled and blotched centers and tri-color patterns. Many flowers over four inches with good culture.

**PLANTS FROM OPEN FIELD BEDS:** 12 for \$1.25; 25 for \$2.00; 50 for \$3.25; 100 for \$5.50; 250 for \$10.00; 1,000 for \$35.00 postpaid.

**HARROLD'S ALL-AMERICAN BEDDING MIXTURE** — This is a blended mixture; 80% from ALL the Harrold varieties and the balance is from the many other kinds which we grow or receive from other sources. This is a very useful general purpose mixture and is an outstanding value in the popular price range. Highly recommended for general bedding. Flowers giant size coloring varied.

**PLANTS FROM OPEN FIELD BEDS:** 12 for \$1.00; 25 for \$1.50; 50 for \$2.50; 100 for \$4.50; 250 for \$9.00; 1,000 for \$30.00 postpaid.

CULTURE SHEET FREE WITH EACH ORDER FOR THESE

## PANSY AND VIOLA SEEDS

We grow and stock the largest selection of Pansy and Viola seeds of any growing specialist in America. We have a special catalogue covering these in full along with much cultural and historical data regarding them. Most of the folks who receive this folder will have already received one of these but in the event you do not have a copy one may be obtained by addressing your request on a postcard to HARROLD'S, P. O. BOX 29-R, GRANTS PASS, OREGON.

## Pansy Plants Continued

## FORMAL SEPARATE COLORS

These formal colors are useful for edging of beds where it is desired to carry out a color scheme or design. It should be remembered, however, that NO separate color variety is 100% true from seeds (usually 80 to 90 per cent) and that for true to color plantings it will be necessary to take this into account in ordering.

**HARROLD'S AZURE GIANTS:** The finest intensely blue Pansy.

**HARROLD'S GOLDEN GIANTS:** Deep golden yellow with large velvety blotch.

**HARROLD'S RUBY GIANTS:** Shades of deep red in finest color range.

**CORONATION GOLD:** The finest pure yellow self, slightly penciled or no marks.

**SWISS BERNA:** A very large violet blue.

**SWISS PURE WHITE:** The finest pure white. Fragrant and lightly ruffled.

**PLANTS FROM OPEN FIELD BEDS:** 12 for \$1.25; 25 for \$2.00; 50 for \$3.25; 100 for \$5.50; 250 for \$10.00; 1,000 for \$35.00 postpaid.

## RULES COVERING QUANTITIES

In Pansies not less than 12 of a variety or color sold. Hundreds may be had at that rate when 50 each of 2 kinds is ordered, 250's so long as not more than 3 varieties are included. We supply 500 at the 1,000 rate so long as no item is for less than 250 of a variety.

*Hardy Phlox*

Hardy Phlox are one of the finest hardy garden flowers. They have immense, brightly colored flower heads that stand well above the foliage and they are almost indispensable in any hardy mixed border. Blooming season extends from late spring well into the summer. Once established they grow rapidly and may be divided about every fourth year. Group well with almost any plants where color and their 2 foot height will blend.

**WALLFLOWER —**

A very showy, easily grown plant of brilliant coloring. It prefers a sweet well drained soil in sun or partial shade and may be grouped effectively with usual hardy border stock.

**CHOICE DOUBLE FLOWERED MIXED:** The most showy red, orange and yellow shades. .... .80 1.25 2.25

**DESIRABLE VIOLA PLANTS**

Violas are a very satisfactory companion to Pansies and in many instances they are more desirable. While smaller flowered they are more compact and bloom more freely over a longer period of time making them most useful as edgings. Also they are usually more true to color which is often desirable. The following lists the finest kinds available, all are highly recommended. Culture is the same as for Pansies.

**APRICOT:** Apricot yellow tinged orange. A striking color.  
**ARKWRIGHT RUBY:** Ruby red. Unlike most Violas these have a large blotch.  
**BLUE BEAUTY:** Early bright blue of good habit.  
**BLUE ELF:** Top deep violet shading lighter toward bottom. Yellow eye.  
**BLUE PERFECTION:** Very popular purple blue. A good one.  
**CHANTREYLAND:** The finest pure apricot. Grand in mass planting.  
**CHINESE BLUE:** NEW! A fine soft blue that is attractive.  
**KING HENRY:** NEW! Rich violet blue with attractive small yellow eye.  
**LUTEA SPLENDEUR:** The standard golden yellow.  
**MISS HELEN MOUNT:** Top rich violet, sides lavender, bottom yellow. Penciled.  
**PAPILIO DEEP VIOLET:** Really true violet color.  
**PAPILIO LIGHT BLUE:** Light blue with white center. Penciled throat.  
**IMPROVED SCOTCH BEDDING MIXTURE:** Large flowered mixed.  
**WHITE PERFECTION:** Large flowered pure white. Profuse flowering.

PLANTS FROM OPEN FIELD BEDS: 25 for \$1.00; 50 for \$1.50; 100 for \$2.50; 250 for \$4.50; 500 for \$9.00; 1,000 for \$30.00 postpaid. Quantity terms same as on Pansy plants.

# Bulbs For Fall

Bulbs of this group are usually planted during Oct. or Nov., before the ground freezes, and bloom early the following spring. Most of them may also be planted in pots or bulb pans and brought into flower during the late winter indoors when they are delightful.

## Bulbous Dutch Iris

Here is a group of attractive flowering bulbs which do not receive as much attention by the home gardener as they are entitled to. Quite hardy they give a beautiful spring display in the early border or massed beds and are wonderful as cut flowers with long lasting quality after being cut. Plant 2 to 4 weeks before ground freezing weather is normally expected as planting too early may result in damage through fall development of foliage. They may be planted in pots or bulb pans up to the middle of Feb. to produce indoor pot flowers in late winter or early spring. Require a light, well drained soil and deep (6") planting.

**WEDGEWOOD:** The largest and earliest blue. Very fine forcer.

**IMPERATOR:** A very attractive deep blue a bit later. A good forcer.

**YELLOW QUEEN:** The very finest golden yellow. Large and forces easily.

**DAVID HAERING:** The finest large white. Also a good forcer.

**BLOOMING SIZE GARDEN GRADE:** For outdoor planting, 25 for \$1.60; 100 for \$5.00; 250 for \$10.00. **FORCING GRADE,** Largest size bulbs, 6 for \$1.00; 12 for \$1.50; 50 for \$4.50 postpaid. Culture sheet supplied with each order.

## ITS FUN TO FORCE YOUR OWN EASTER LILIES

### HARROLD'S PEDIGREED STRAIN *Croft Easter Lilies*

Force Easily Or Grow Well In The Garden

**CROFT LILIES** have been the sensation of the professional trade as a Lily for Easter forcing ever since their introduction just before the war. If you have a small conservatory or flower window where it is possible to maintain temperatures of 60 or 65 degrees at night our **HARROLD'S PEDIGREED STRAIN** Oregon Grown **CROFT LILIES** can be bloomed in time for Easter easily. We supply a culture sheet with each order and send out only the finest, professional florist forcing quality bulbs of proper size to produce 4 to 6 blooms each when properly forced. This Lily is the very finest used by the florist trade and the pot plant at Easter time being from \$1.00 to \$1.50 per bloom or from \$4.00 to \$9.00 per pot. Plant growth is 16 to 24 inches high and the flowers are huge. We will ship at proper planting time (Oct. to Dec.) but no orders will be accepted for forcing grade after Nov. 15th. **PRICE** \$1.50; each; 3 for \$4.00; 6 for \$7.50 postpaid.

**THIS LILY IS HARDY** where temperatures do not ordinarily drop below 10 below zero if given light protection. They may be planted in the garden where their huge flowers on compact, heavy plants make them a beautiful attraction. **PRICE:** Garden grade, not suitable for forcing but will bloom next summer if planted before the ground freezes \$1.00 each; 3 for \$2.50; 6 for \$4.50; \$8.00 per dozen; per 100 \$55.00. Bulblets that bloom the second year, \$2.50 per dozen; 25 for \$4.75; per 100 \$18.00.

**COMMERCIAL PLANTING STOCK**

Here in the north-west many people are finding the commercial growing of this **Croft Lily** to be most profitable. We can supply top quality planting stock to those who want it and we have a very comprehensive cultural booklet on their commercial outdoor culture which we supply free with orders for 100 or more any size. If you want the booklet by itself the price is \$1.00 per copy. In planting stock the 4 and 5 inch stock is one year old and will produce commercial stock the first year while bulblets 2 to 4" grade will produce commercials the second year.

**PLANTER PRICES:** 5" grade \$40.00 per 100; \$385.00 per 1,000. 4" size \$35.00 per 100; \$335.00 per 1,000. Graded Bulblets, 2 to 4" \$18.00 per 100; \$175.00 per 1,000; 5,000 for \$700.00; 10,000 for \$1250.00. In buying planting stock you must rely on the source for quality.

## Hardy Chinese Orchids

These *Bletilla Hyacinthina*, a native of China and Tibet are a most interesting true Orchid that is hardy practically anywhere in the U. S. Flower stems are a foot or more tall and the plant produces 6 or 7 flowers typically orchid shaped. Grows well in half shaded protected border forming clumps as the plant gains age. Color choice, white or lavender. **PRICE:** \$1.00 each; 3 for \$2.50 postpaid.

**CULTURE SHEET FREE WITH EACH ORDER FOR THESE**

## Tulips - A Real Bargain

**AMERICAN GROWN.** These blooming size top quality bulbs will give a grand display at very low cost. We can offer but two separate colors — **CLARA BUTT** rich salmon pink and **INGOLDSCOMBE YELLOW** a clear golden yellow or a fine **MIXTURE** of 8 colors. Specify preference. **PRICE:** 25 for \$1.60; 50 for \$2.75; 100 for \$5.00. Planting size, many will bloom the first year, 100 for \$1.80.

## Anemones - Giant Windflowers

Very showy flowers in early spring or may be forced indoors in late winter. The colors are exceptionally brilliant. Culture is about the same as for Tulips except that they need a bit warmer location and a little protective mulch. We offer only **TOP** size bulbs, the best, for either garden planting or indoor forcing.

**SINGLE FLOWERING:** Colors red, blue, lavender pink, white and a select mixture — 12 for \$1.00 25 for \$1.75; 100 for \$5.50; 250 for \$11.00.

**DOUBLE FLOWERING:** Don Juan, red; Lord Derby blue; Queen of Violets violet; Rosette rose and white variegated; Surprise carmine; Purity white and St. Brigid fine mixed. 12 for \$1.50; 25 for \$2.50; 100 for \$8.00; 250 for \$16.00

## Ranunculus - Giant Double

**PERSIAN BUTTERCUPS:** Few flowers give so much beauty and color with so inexpensive a start. In climates where temperatures do not generally drop below 25 degrees in winter these may be fall planted, elsewhere they should be planted in early spring. They like a moist, moderately rich soil where drainage is good. Each bulb produces many fully double flowers 3 to 5 inches across. They prefer partial shade or light shade. No garden should be without them.

**COLORS:** Gold, Orange, pink, red, white and a very fine mixture. **PRICE:** 12 for \$1.00; 25 for \$1.75; 100 for \$5.50; 250 for \$11.00.

## Tuberous Begonias

Be sure and await the arrival of our special catalogue of these in January before ordering. We will have over 50,000 of the finest **AMERICAN GROWN** tubers this season in over 40 standard and novelty types at really popular prices. A word about **Tuberous Begonias**, we have only 100% American Grown stock in these because it is far superior to imported tubers. American varieties are available in much better selection and the price will be so near the same for each type of stock that you can't afford to compromise quality. Be sure and see this special catalogue before ordering anywhere.

### Please Read Before Ordering

**NO GUARANTEE** — In common with general practice in the nursery and seed trade we do not in any manner guarantee the results or crop obtained from any material we send out. We use every care in growing and handling the material offered and endeavor at all times to supply stock true to name and description. In no case, however, will we assume a responsibility greater than the amount received as the original purchase price and if for any reason an adjustment is indicated we reserve the right to make such adjustment in the form of replacement in identical kind ordered or cash at our option. Any claim for bad order arrival **MUST BE MADE WITHIN 5 DAYS** after arrival of shipment.

**PAYMENT** — All mail orders **MUST** be accompanied by the full amount of the order in cash. This may be sent by postal money order or note, express money order, bank draft or personal check. **WE WILL NOT ACCEPT POSTAGE STAMPS** for any part of the remittance so please don't send them. They will only be returned. Where order is made at the gardens for items that may not be in stock a deposit of 25% will be required: returnable in the event delivery can't be made.
